User Stories and Prototyping

Daniil Baldouski

February, 2025

User Stories

1. "As a [persona],

User Stories

1. "As a [persona],
2. I want to [do something]

User Stories

1. “As a [persona],
2. I want to [do something]
3. so that I can [realize a reward]”

Example

1. “As an **HR manager**,

Example

1. “As an **HR manager**,
2. I want to **match an open position’s required skills with quiz topics**

Example

1. “As an **HR manager**,
2. I want to **match an open position’s required skills with quiz topics**
3. so that I can **create a quiz relevant for candidate screening.**”

Hierarchy of User Stories

- **Epic Stories → Child Stories → Test Cases**

Hierarchy of User Stories

- **Epic Stories → Child Stories → Test Cases**
 - ES: describe a user action

Hierarchy of User Stories

- **Epic Stories → Child Stories → Test Cases**
 - ES: describe a user action
 - CS: detail that action

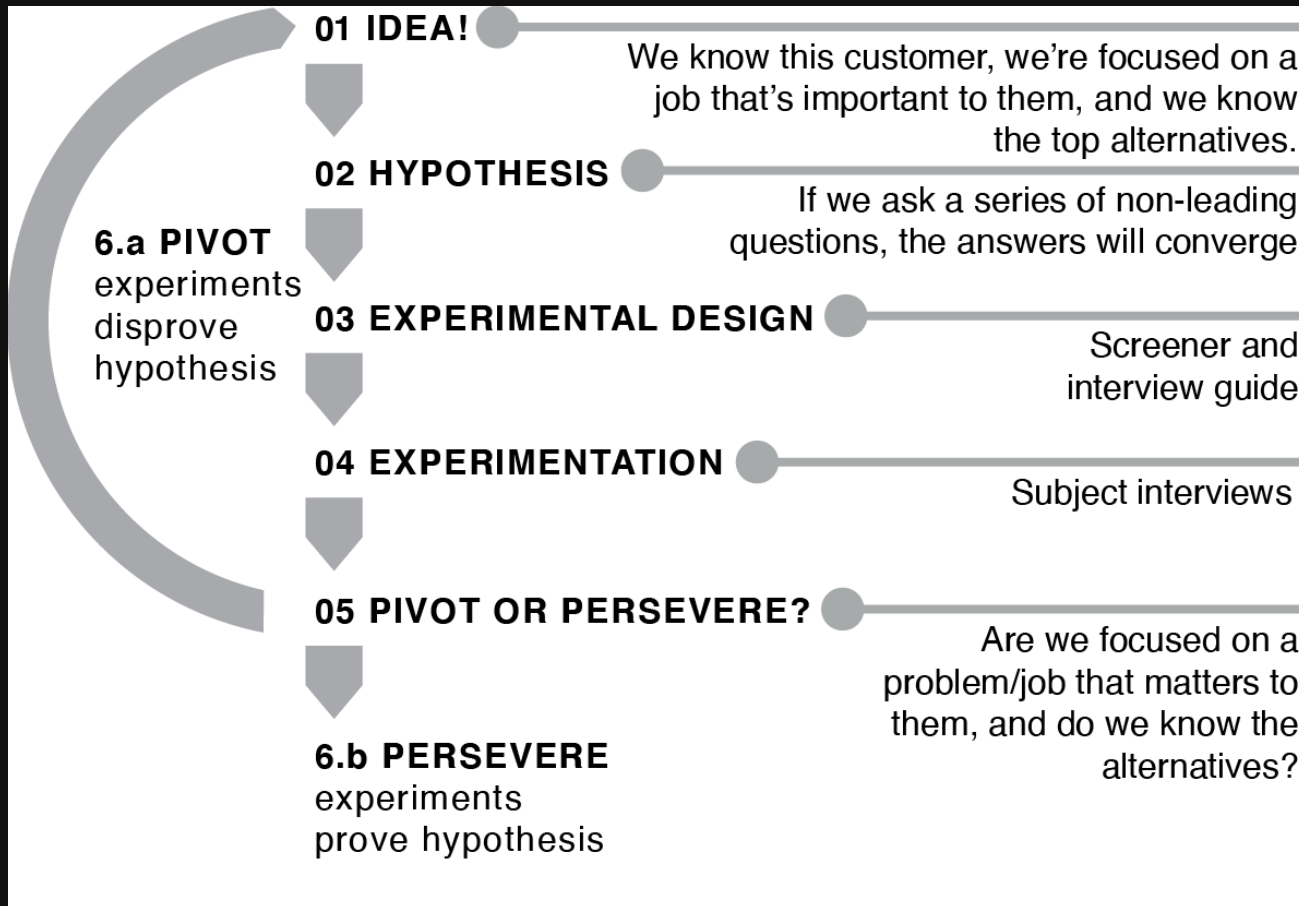

Hierarchy of User Stories

- **Epic Stories → Child Stories → Test Cases**
 - ES: describe a user action
 - CS: detail that action
 - TC: even more details, will then be used to construct **tasks**

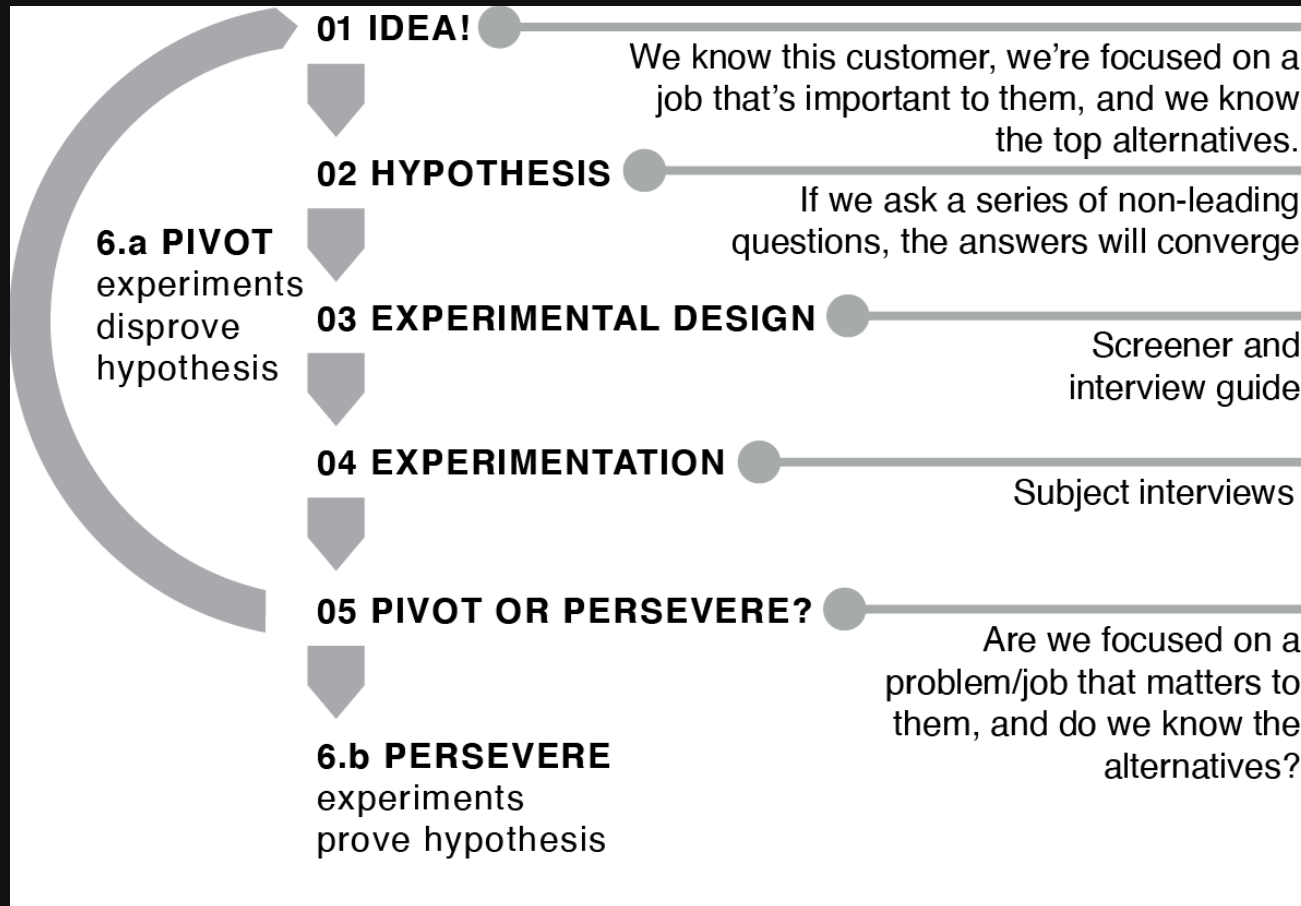

Example

User Story	Test Cases
As an HR manager, I want to match an open position's required skills with quiz topics so that I can create a quiz relevant for candidate screening.	- Make sure the quiz topics are searchable by name. - Make sure the quiz topics have alternate names, terms for searching
As a functional manager, I want to send feedback on the screening quiz to the HR manager so I make sure I'm getting the best possible screening on candidates.	- Make sure it's possibly to supply comments in-app. - Make sure the above are quiz-specific by default but can also be general. - Make sure it's also easy to copy the name or URL of the quiz for their own correspondence.

Prototyping

Prototyping

Source: Hypothesis-Driven Development (Practitioner's Guide) by Alex Cowan

Prototyping

- Keep it simple, otherwise:

Prototyping

- Keep it simple, otherwise:
 - distracted audience

Prototyping

- Keep it simple, otherwise:
 - distracted audience
 - likely wasted time, a good chance you will change things anyway

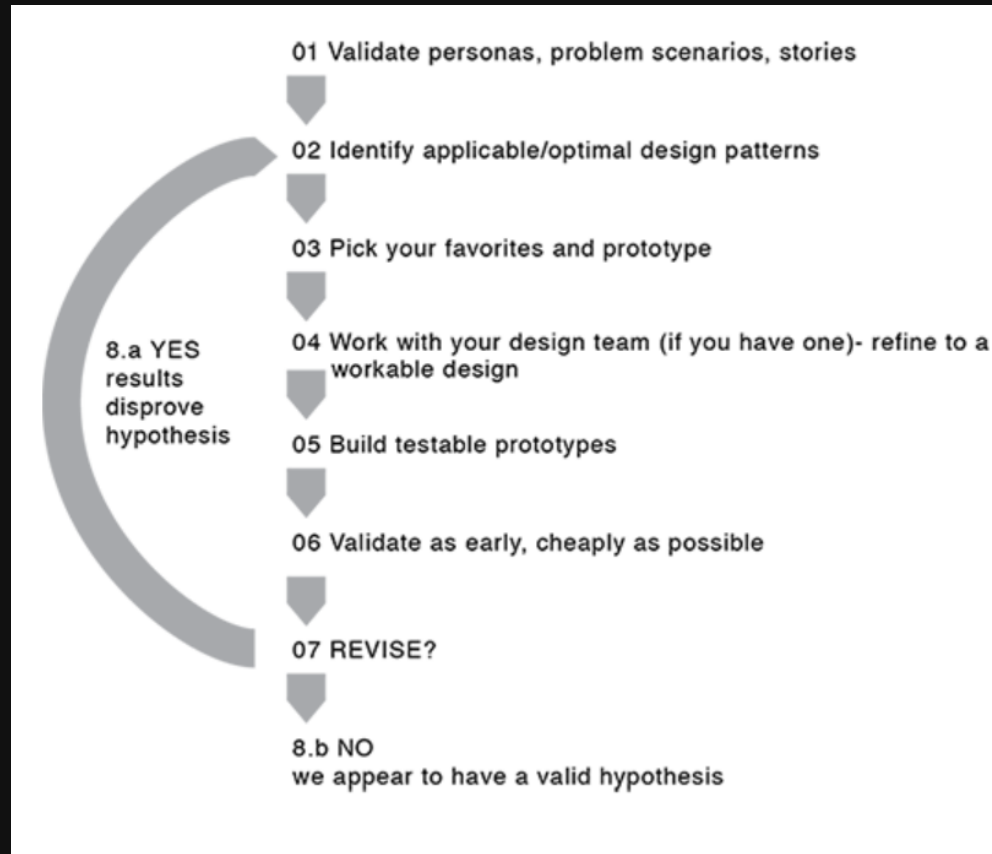

Prototyping

- Keep it simple, otherwise:
 - distracted audience
 - likely wasted time, a good chance you will change things anyway
 - over-invested in the concept, unwillingness to change

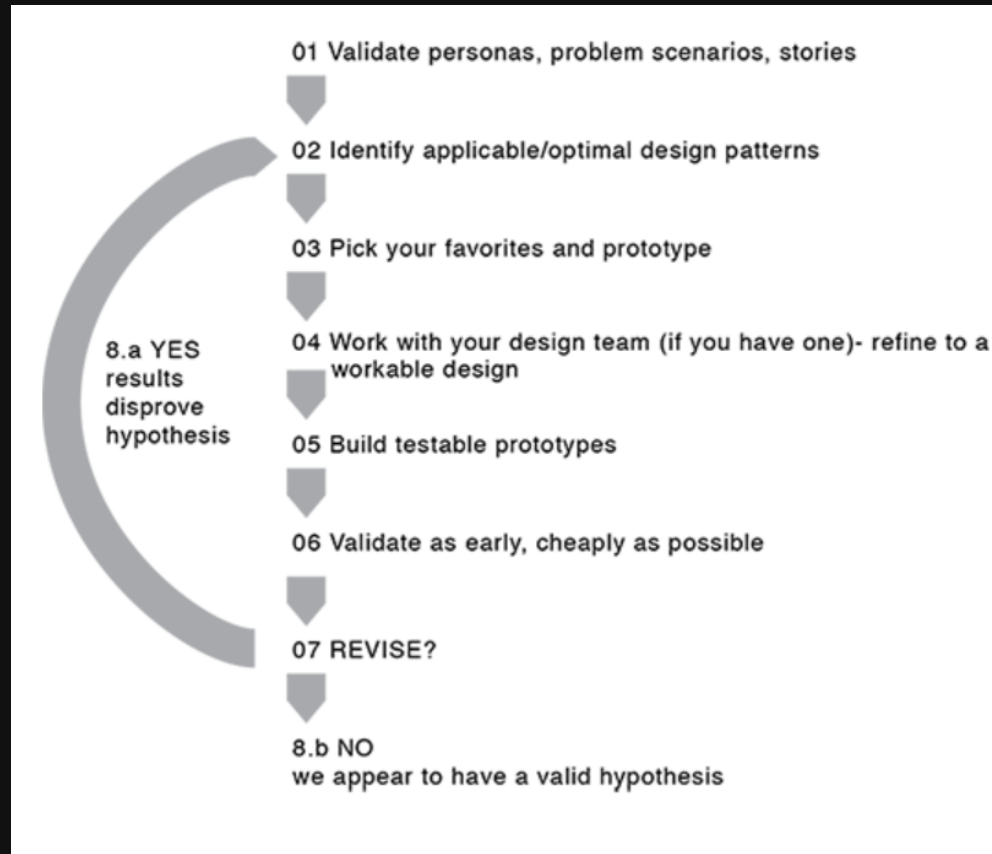

Prototyping

- Keep it simple, otherwise:
 - distracted audience
 - likely wasted time, a good chance you will change things anyway
 - over-invested in the concept, unwillingness to change
- Make it interactive (if possible)

Prototyping - Product UI

Homework 3 - User Stories and Prototyping

- For each persona add 3 user stories, then decompose it further into test cases (**be specific**).
- (start prototyping, prepare for the interview and hypothesis testing in 2 weeks)
